

Dr. Lori d'Agincourt-Canning, PhD

Dr. Lori d'Agincourt-Canning is an ethicist and co-director of the Clinical Ethics Service, Children's and Women's Health Centre of BC. She co-chairs the BC Children's Hospital Ethics Committee and is cross-appointed as a clinical assistant professor in the Department of Pediatrics, UBC and adjunct professor, UBC School of Nursing. She also serves as an ethicist on the Drug Benefit Committee for the BC Ministry of Health. Dr. d'Agincourt-Canning has a key role in clinical ethics consultation, as well as ethics education and capacity-building. Her current research focuses on social justice and access to health care. Her publications span a range of issues in health care ethics, including of the ethics of genetic testing for late onset hereditary cancer. She also has a keen interest in the ethics of multi-disciplinary practice, moral distress and the moral climate of health care.
