Providence Health Care Employee Referral Program

PURPOSE

There's something different about Providence Health Care that sets us apart, yet it's hard to put into words exactly what this intangible is that runs throughout our sites, our units and our people; but, the most credible source to speak to what it is we all feel here at PHC is our staff who live our mission and values providing British Columbians compassionate, socially just and innovative care every day.

Our Employee Referral Program is designed to empower and encourage our staff to help spread the PHC story and be our best advocates by helping promote PHC as an employer of choice and referring exceptional talent to the organization.

Our people are our greatest strength making PHC a workplace and a place of care that leads with compassion and social justice. If you were inspired to grow your career with us through hearing first-hand what it's like to work at Providence Health Care – through your friend's dedication to patient care, your sister's commitment and creativity in finding solutions together with our patients and residents or perhaps your neighbour's praise of our organization's achievements – we want to thank them for helping refer you to our organization.

ELIGIBILITY

All employees are encouraged to participate in the program; however, due to the nature of their positions, leaders, managers and Recruitment staff are not eligible to receive a reward. Referees must be currently employed with PHC to be eligible to receive a reward.

HOW DOES IT WORK?

New hires referred to the organization by a PHC employee must complete an Employee Referral Form and return it to PHC Recruitment for their referee to be eligible to receive a reward. For each successful referral, the referee will receive a \$50 gift card of their choice!

For more information, please see the Providence Health Care Employee Referral Program Guidelines at:
