Volunteer as a Patient and Family Partner and Improve BC Health Care

Have you or a loved one been a patient or resident at St. Paul’s Hospital, Mount Saint Joseph Hospital, Holy Family Hospital, Brock Fahrni, Langara, Honoria Conway or Youville Residence?

Providence Health Care is recruiting Patient and Family Partner volunteers to work with our leaders, staff and medical staff to make the care we provide even better!

Are you:

- Eager to help us improve our health care services?
- Willing to share insights about your own health care experiences?
- Excited to serve as an advisor to health care teams?
- Interested in how policies, programs, documents or projects affect patients and families?
- Available to participate in meetings, emails and workshops?

If you answered yes, we invite you to become a Patient and Family Partner at Providence Health Care!

The first step is to email pfcc@providencehealth.bc.ca to be connected with our Patient and Family Engagement Team.
